VYKON® NEW ZEALAND WHEY PROTEIN ISOLATE

INCREASE LEAN MUSCLE MASS AND RECOVERY FOLLOWING A WORKOUT

Made with the highest quality
Whey Protein available, Vykon®
New Zealand Whey Protein
Isolate is a great choice for those
looking to increase lean muscle
mass, those looking to increase
protein in their diet or those
looking to increase recovery
following a workout.

ABOUT VYKON® NEW ZEALAND WHEY PROTEIN

Vykon® Whey Protein Isolate consists of whey isolate sourced straight from New Zealand. New Zealand has extremely strict regulation with regard to treatment of their dairy cattle. This results in an extremely clean milk product.

Vykon® Whey Isolate is processed using cold pressed technology. The proteins are left primarily in their natural state. Our whey protein products are not spiked with amino acids and contain no added soy. Only natural flavours and natural sweeteners are used.

Vykon® New Zealand Whey Protein Isolate helps build lean muscle, increase strength and endurance and improves recovery after workouts.

Adults: Take 20-25 grams 1-2 times per day, oral (1 level scoop = 20g, 1 heaping scoop = 25g). Mix product well in 1-2 cups of liquid (water, juice, etc.) immediately before consumption.

Available in Chocolate and Vanilla flavours.

WHAT VYKON® CUSTOMERS ARE SAYING...

- 6 Love the taste and impressed with the quality of the vanilla protein powder; I know I can trust Vykon when it comes to their ingredients." Josh F.
- This is a great product! It makes it easy to add protein to my diet in my shakes and gives me the energy for my workouts and daily activities. I have tried both flavours too and they are equally delicious!"

 Karen F.
